

# UFO HIGH BAY

## PQ-HBST3

The HBST3 offers selectable wattage and CCT, making it versatile enough to handle countless applications.

- 120°, 100°, and 60° beam angle, CRI >70
- AC120-347V, 50-60Hz
- Low THD driver, 0-10v dimming
- Support Microwave sensor accessories.
- Extra Reflector and Emergency battery backup, optional.
- Suspended/Ceiling/Pendant mounting bracket available.

### The ideal lighting for diverse environments

- Its standard efficiency is 150 lumen per watt. But it can reach up to 180 lumen per watt and its highest lumen reaches 36,000 lumens.
- HBST3 includes an expansion port to easily add the sensor which controls by controller. It can be configured to adjust brightness and hold time, saving additional energy and costs. It comes standard with a G hanging hook but also available O hanging hook and U bracket mount kit for optional.
- HBST3 widely used in warehousing, industrial facilities, sports facilities, gymnasiums, etc.

In summary, the highly efficient lighting fixture combines performance, reliability, and durability to provide exceptional lighting suitable for a wide range of applications

## THE HBST3 LIGHTING FIXTURE IN DEPTH

Support O/G hook and U bracket mount kit for surface or pendant mounting. Safety Hanging kit is optional.

Die-casing aluminum housing and heat sink for added protection.

0-10v dimmable driver, which can dim from 100% down to off.

Support Microwave sensor accessories.

## EMERGENCY BATTERY

This lithium-ion battery, with a 90-minute autonomy, has several key features

- ▶ It offers easy installation by connecting directly to the LED High Bay's AC input.
- ▶ It comes with an integrated junction box, eliminating the need for additional components.
- ▶ Its compatibility with various sensors (120-277V/347VAC or 12V DC) makes it highly versatile.
- ▶ It maintains a stable power output, ensuring consistent brightness.
- ▶ It can be installed on-site or in the factory, offering great installation flexibility.
- ▶ It provides multiple mounting options, such as chain or tube mounting.
- ▶ Its operating temperature range extends from 0°C to +50°C (32°F to 122°F).
- ▶ It incorporates protections to prevent overheating, overloading, over-discharge, and short circuits.

**This lithium-ion battery serves as a reliable and versatile power source for LED High Bay fixtures, providing easy installation and advanced features to ensure stable brightness.**
