

PEDESTAL

FOR LEVEL 2 MODELS

Compatible with

- PQ-HS102
- PQ-CS308
- PQ-DS308

► Single

► Dual

Power Q delivers residential AC charging solutions in floor-standing configurations, with output capacities spanning 7.6kW to 22kW for single/dual-port connectivity. All units integrate intelligent energy management systems backed by industrial-grade hardware architecture. The proprietary adaptive power distribution (APD) module optimizes multi-vehicle charging efficiency while preventing circuit overloads.

PEDESTAL

FOR LEVEL 2

COMPATIBLE MODELS

► PQ-HS102

► PQ-CS308

- The vehicle charger is ETL certified for safety and reliability.
- It is rugged, weatherproof construction allows it to be used outdoors.
- The 25-foot charging cable gives you the flexibility to position your vehicle.
- Multiple power settings allow you to customize the charging rate.
- Integrated safety features provide protection from overheating, overcurrent, short circuits, etc.
- The LED screen clearly displays charging status and diagnostic information.

► PQ-DS308

PEDESTAL

FOR LEVEL 2

► Model 1 - Standalone Installation for Single connector

- Standalone, convenient charging station setup for environments where wall mounting isn't possible.
- Broad Applicability: Suitable for homes, businesses, and parking lots, with flexible installation to meet varied needs.
- Superior Protection: Made with galvanized steel and electrostatic coating for strong corrosion and weather resistance.
- Unified Design: One-piece structure with no splicing required, enhancing aesthetics and durability.
- Fully Compatible: Supports all North American Level 2 chargers.
- Optimized Charging Experience: Delivers a more convenient and efficient charging experience for EV owners, suitable for any site.

Order Code: PQ-LP-SP

Single pedestal for 1 unit.
Single Port

27 x 20 x 133 cm

Order Code: PQ-LP-BBPHD

Back to back pedestal for 2 units.
Single Port

27 x 20 x 133 cm

PEDESTAL

FOR LEVEL 2

► Model 2 - Standalone Installation for Dual connectors

- Standalone, convenient charging station setup for environments where wall mounting isn't possible.
- Broad Applicability: Suitable for homes, businesses, and parking lots, with flexible installation to meet varied needs.
