

EV Charging Cable Retractor

PQ-EVCM99

- **Cable management with easy retractable reel.**
- **Locking ratchet does not put tension on the charging cable while charging.**
- **11 feet cord for flexibility and ease of use.**
- **Compact design.**
- **Mounting hardware included.**

Wall Mounted Charging Cable Retractor for office business. Simply pull out the cable when you need to charge your EV and retract it when you're done.

The locking ratchet ensures that the cable stays in place without putting tension on it, so you can charge your vehicle worry-free.

The 11-foot cord provides plenty of length to reach your vehicle, while the compact design makes it easy to store when not in use.
